

# SUMMIT ESTATES

Assisted Living and Memory Care

Caring People | Serving People | Improving Lives

**Caring People, Serving People  
Improving Lives**

## WELCOME

Summit Estates is a home where your friends and family are welcome, new friendships are developed and life is lived to the fullest.

## PEOPLE

Our team members make Summit Estates a special place to call home. They bring energy and life to our community as they carry out our mission - Caring People – Serving People – Improving Lives. Team members have the privilege of coming into your home and making a difference in your life each day.

## ENVIRONMENT

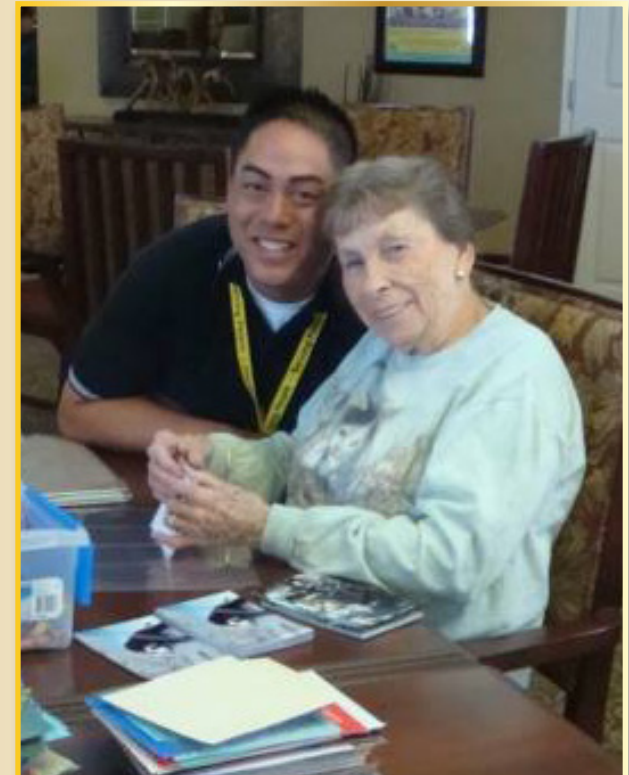

Summit Estates was designed with our mission in mind. The interior is warm, inviting and comfortable just like you want home to be. It has special amenities that allow residents to receive assistance with their health care needs in a home like setting. In addition to different floor plan choices, residents may chose to spend time reading the newspaper, take their morning walk, join in on a game of cards, laugh with new friends while watching a movie, enjoy gardening, or join our fitness class – The choice is yours.

## CHOICE

Life is full of choices. We seek to personalize services for each resident. The foundation for our care and service is achieved by working with each resident, loved ones and medical providers on an individualized care and service plan. This provides the basis on which our team members can help you meet your wants and needs

All major life changes are stressful, and the challenges that go along with aging can make relocation particularly difficult for seniors and their loved ones. It is our mission to make this transition as easy and comfortable as possible, and help our residents begin the next great chapter of their lives.
